BAISANGUR DUDAYEV

CLOUD & CYBERSECURITY BACHELOR STUDENT

ABOUT ME

I am in my final year of a bachelor's degree in Cloud & Cybersecurity, fascinated by both offensive and defensive security. My passion for understanding how technology works and its role in shaping the future led me to specialize in cybersecurity.

Driven by the challenge of protecting digital environments and addressing real-world security issues in today's interconnected world, I am eager to apply my skills and knowledge in practical cybersecurity roles.

After completing my studies, I can't wait to dedicate more time to studying for and earning Hack The Box certifications, further honing my skills.

EDUCATION

Thomas More university of applied sciences Geel, Belgium
Bachelor of Cloud & Cybersecurity
2022-2025 (ongoing)

Koninklijk Atheneum Geel, Belgium
ICT - Secondary Education (Years 5 and 6)
2020 – 2022

SOFT SKILLS

- Focus on continuous learning
- Communication
- Disciplined
- Critical Thinking
- Ability to adjust to new situations

LANGUAGES

- Dutch
- English

PROJECTS & SKILLS

- **SOC Internship:** Currently working on upgrading a SOC and building a SIEM from scratch with 3 other students.
- **Networking: Knowledge of Switching, Routing, and Wireless Essentials (based on CCNA curriculum).**
- **Web Application Pentest:** Conducted vulnerability assessments and delivered a pentest report.
- **SOC Environment:** Set up and configured.
- **PFSense Firewall Course:** Completed in 2 days.
- **Linux & Docker:** Experienced in operating systems and containerization.
- **Active Directory:** Basic knowledge of management and configuration.
- **Cloud Computing:**
  - Extensive experience with **AWS**, including deploying and managing resources like EC2, S3, ECR, and IAM.
  - Familiarity with **Azure**, working on tasks such as deploying containers and managing Azure resources. Applied cloud security best practices across both platforms.
- **DevOps:** Automated CI/CD pipelines using tools like GitLab CI and AWS CLI for streamlined application build & delivery.
- **VMware ESXi:** Collaborated on a team project to set up and configure VMware ESXi environments.
- **Scrum Methodology:** Worked effectively within an Agile Scrum environment, participating in sprint planning, reviews, and retrospectives.
